**What is Quizlet**

*Quizlet is an online learning tool that helps you study any subject. The program allows users to create vocabulary or questions and learn from flashcards, tests and games. It was created by Andrew Sutherland in 2005. Andrew Sutherland is American and was 15 years old when he created the program to help study his French vocabulary. The program is free but you'll have to pay if you want to access more features in the program. The name Quizlet comes from the word "Quizlette", the name of the little quizzes given by Andrew Sutherland's French teacher.*
