**JUST BEET IT!**  
GIVE THIS DAZZLING COLORED VEGGIE A TRY

**Healthy for you and a Superfood**  
MAKES UN-BEETABLE SMOOTHIES

**Increase Athletic Ability**  
Beets enhance performance,  
improve blood and oxygen flow

in backyard or available in most gro

The poster features a background image of several fresh beets with green leaves. On the left, there is a small inset image of a red beet smoothie in a glass with a straw. At the bottom left, there is a small inset image of a person in a field. At the bottom right, there is a small illustration of a person in a red tank top holding a blue and yellow ball.

In Foods 9, I had to choose an “unpopular” vegetable and market it towards teens. My marketing strategy had to include health claims and why teens should try it. I was able to experiment with different advertising medias such as videos, PowerPoint or poster. I looked up other advertisements and chose to create a poster using Canva. I was able to play with a variety of fonts, designs and eye-popping colors to appeal to my audience and attract their attention. I feel that my choice in design and my script made an impact as I received a good grade from my teacher and my peers complimented me on my poster.

# Minecraft Project

Socials 9

# Response

This project for Socials 9, I had to create a colonization in Minecraft. This project involved a lot of critical thinking and creativity. The colony/fort had to be protected by walls and required specific criteria such as a church, blacksmith, market, a bank, and homes. I can tell what's important to me and include that to the colony. I got some of my ideas from researching and reading about colonies from the past. I wanted to achieve a realistic representation of a Canadian colony. I was able to show a sense of accomplishment and joy.

Should we go into Lockdowns?

Camryn, Alejandro, Max

For this project, my group and I had to make a presentation on current events. Our topic was Covid19 and why we should/ shouldn't go into lockdown. My point of view was why we should not go into lockdown. I was able to analyze articles from different perspectives. My research enabled me to find credible sources and find the difference between facts and opinions. This project allowed me to participate and contribute to a group project. My group and I communicated, gathered our information and put it together in a PowerPoint.
